

Thank you for your purchase! We hope you will enjoy it. All Can'nX products are crafted with great attention to detail. We strive to provide you with the best product. Send an e-mail to info@can-nx.com for any further assistance.

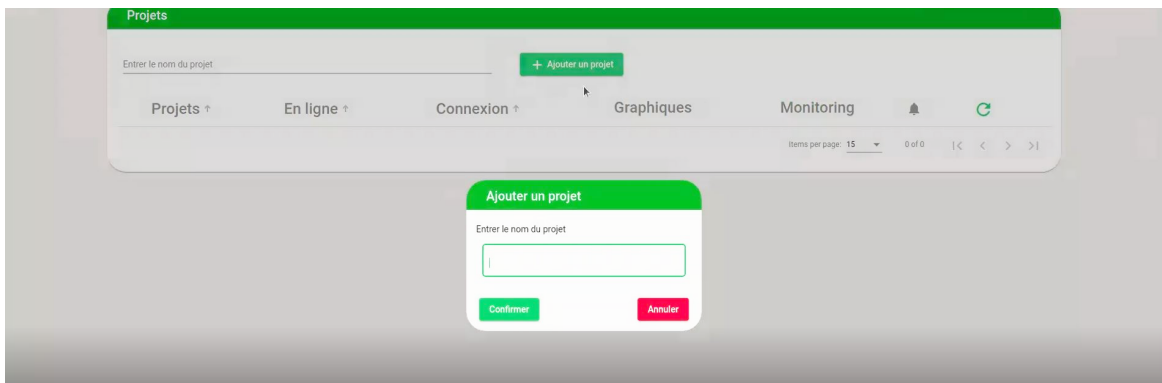

Here are the first steps to use your gateway Kloud'nX :

1. Visit <https://can-nx.cloud> through your browser and create your account, if you don't already have one

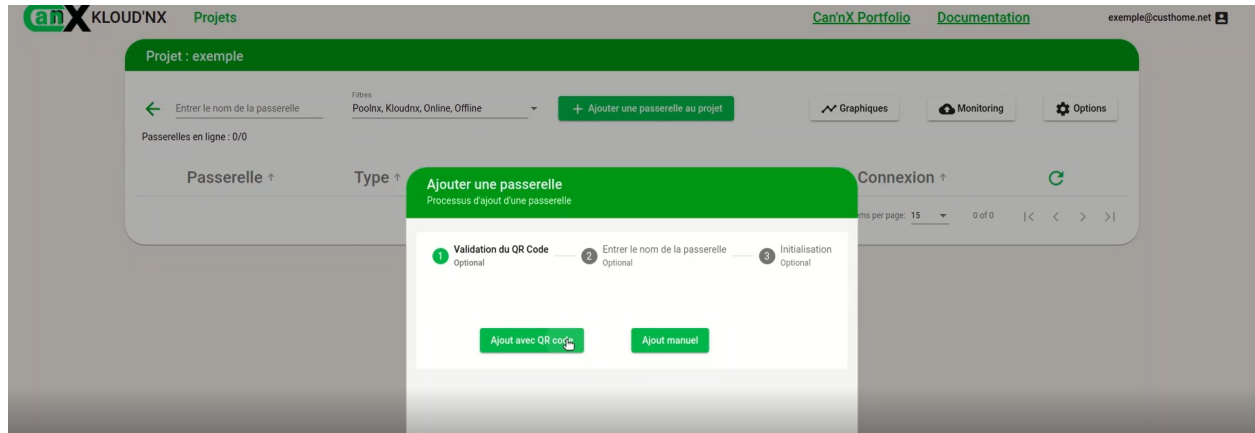

The screenshot shows a web browser window with the URL can-nx.cloud/welcome. The page features the Can'nX Kloud'nX logo at the top left. A central white form contains two tabs: 'S'identifier' and 'Créer votre compte', with the latter being active. The registration form includes the following fields: 'Nom *', 'Email *', 'Mot de passe *' (with a character count of 0/8 and an eye icon to toggle visibility), and 'Confirmation du mot de passe *' (also with an eye icon).

2. Click on add a Project

The screenshot displays the 'Projets' section of the Kloud'nX dashboard. At the top, there is a search bar with the placeholder text 'Entrez le nom du projet' and a green '+ Ajouter un projet' button. Below this, a navigation menu includes 'Projets', 'En ligne', 'Connexion', 'Graphiques', and 'Monitoring'. A modal window titled 'Ajouter un projet' is open, featuring a text input field for 'Entrez le nom du projet' and two buttons: 'Confirmer' (green) and 'Annuler' (red).

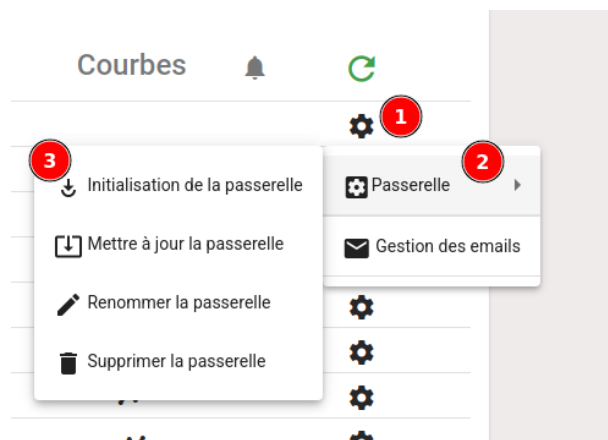

3. Click on add a **Gateway***

4. Scan the QR code on the side of the gateway

5. Start initializing the gateway (the gateway will connect to the internet within 10 minutes of from the launch initialization)

*+ ajouter une passerelle

Note : The initialization can take about ten minutes depending on the debit of your internet connection. Once the gateway appears "Online" in the list, it has completed its initialization process and you can start using it.
